

*Integrated technical management starts here...*

*danaosPMS is the leading Technical Management system installed in three hundred shipping companies worldwide.*

*Apart from Planned Maintenance, Spare Parts and Inventory Control, provides also the links to Danaos Purchasing, Marine Accounting and Crewing, thus integrating your Technical, Economic and Personnel Management.*

*danaosPMS had a system approval since 1987 and a type approval in 1999 from DNV. It is approved by other classification societies as conforming to their CSM/CSH, CMS, PMS class notations.*

*danaosPMS is the only software that can run in the office only with paper exchange, on the vessel only with paper exchange or in the office and vessel in synchronised mode. (\*)*

*(\*) Requires danaosONBOARD for full functionality*
